Padel of the Week – Adipower Lite – now available in the Sports Shop

Racket for advanced or intermediate level players who need a racket that provides balance in all game situations.

The Adipower Lite is an extra-large diamond shaped racket so that no ball is out of reach. This racket is synonymous with balance: maximum power without sacrificing comfort. It is a Padel racket with magnificent manageability thanks to its weight, format and the materials used. It also offers superb comfort due to its composition in fiberglass and the EVA Soft Performance rubber. It provides maximum power thanks to the next technologies:

- Dual Exoskeleton: increases the power when hitting thanks to the structural rigidity.
- Spin Blade: for a better ball spin due to the roughness on the racket's surface.
- Power Embossed Ridge: technology located in the frame that allows greater power in all kinds of shot.

Racket of the Week – Yonex Ezone – available in the Sports Shop now

The EZONE as endorsed by Nick Kyrgios and Naomi Osaka. The obvious choice for budding pros as the smaller head size (98) gives extra control and the heavier weight gives plenty of punch in those ground strokes.

A brand new aero-shaped frame creates a more plush and comfortable experience when rallying while the Oval Pressed Shaft ensures that players receive optimal shaft flex to hit with spin and control. The EZONE also benefits from M40X² high elastic graphite in the frames throat to further enhance the rackets stability and flex. With the addition of Vibration Dampening Mesh (VDM) around the handle, unwanted vibrations are filtered out which not only improves the comfort immensely but also touch and precision.

Receive 20% OFF your first restring with each frame purchased from us!
