The science of learning through play

Your children and babies learn through first-hand experience in a holistic manner. They have a natural desire to learn and to make sense of their environment through playing and using their senses.

Our creche allows children to develop at their own rate with the focus on what they can do rather than what they can't. Play is your child's work, enabling them to make sense of the world around them, exploring and experiencing within the safety of a supervised and caring environment.

The Roehampton Club creche has been designed with this in mind. Our activities are designed to create that special range of experiences (physical, intellectual, social and emotional), enabling your child to embrace knowledge at their own pace.

So, you can be really confident that your child is having fun and learning through play. We pride ourselves on the wide range of activities we provide. Please look out for our regular eight-week plan of everything going on in your Club's creche.

Booking procedure

With our creche with aim to work to specified ratios of childcarers to children. Places go quickly so booking in advance helps secure your place but also helps us to keep to these ratios. Cancellations should be made a minimum of 24 hours before your booking time to avoid being charged.
