HOW TO NAVIGATE YOURSELF AROUND THE EXHIBITION

Open the gallery website using the same link and click 'ENTER EXHIBITION'

You will find yourself at the entrance to the first gallery.

Click the small roundel with 3 parallel lines in the top right-hand corner.

Click on 'Enter full screen' .

There are several ways to move yourself around the three galleries, we would recommend:

- Using the arrows on your keyboard to move yourself forwards and backwards, left and right
- When you are at a location use the left or right arrows at the bottom right of the screen to rotate your view through 360 degrees

If you want to move to an artwork either:

- o click on the floor in front of it to stand close to it or
- o click on the artwork itself for a closeup detailed view

Buttons will appear in the bottom right-hand corner of the screen, and you can click on the 'previous' or 'next' buttons to go around the exhibition one image at a time in your own time.

We hope that you enjoy the exhibition, find an early Christmas present and would like to join at art class yourself!
