

Croquet Communique – 10th February 2022

Lawn Maintenance

We are nearing completion of the levelling works on lawn one and now beginning the regrading of the slopes between courts one and two and three to four and adjusting the water sprinklers.

This will provide a larger level area to the edges and improve 'stance'. The grounds team have taken deliveries of new turf to replicate the grass on the lawns.

Practice Area

We are also creating a new practice area for 'jump shots' using court-quality turf

Summer Internal Competitions

Remember to enter soon. We hope to have a good level of participation again this year and encourage all to try at least one competition. The closing date is 21st February 2022.

Other Competitions

The Croquet Association website is now open for entries into other competitions. We encourage involvement in all of these, particularly those held at Roehampton Club including:

- GC B Level 3-6 handicap on 27th April 2022
- GC C Level 7+ handicap on 09th June 2022

It will be good to have a strong Roehampton Club contingent!

Lost Mallet

David Mooney has misplaced his all black Pidcock mallet – identifiable by some red tape and a travel Split Joint. If you have any information, please contact David Mooney.

Spring is just around the corner, so enjoy your croquet.
